2001-014-538

June 25, 2001

Dear Ms. Duarte,

I am writing in reference to FAR Case 2001-014. The government represents us, the taxpayer and worker. Therefore it is incumbent upon the government not to contract out work to those (corporations) people who have violated our laws against the citizens of this country. The government should set an example, that is the only way we will have decent working conditions and a living wage for all workers.

You have my support in pursuing the fair and just course in searching out companies that obey our labor laws in awarding of contracts.

Sincerely

Lorraine Fore Bourne
